Your partner for...

...innovative hygiene management

Calvatis is one of the leading independent manufacturers of cleaning and disinfecting agents. This enables us to offer individual hygiene concepts to our customers. The calgonit product range by Calvatis has been successful in the global market for 75 years.

The main application is hygiene

- ✓ Consulting and hygiene management
- ✓ Beverage industry
- ✓ Food industry
- ✓ Dairy processing industry
- ✓ Agriculture
- ✓ Device and systems technology
- ✓ Water treatment
- ✓ Contract manufacturing

Calvatis has a mature product range and its calgonit product lines include more than 1000 different branded products. It can therefore offer an integrated hygiene concept in all areas.

Calvatis develops and produces at the Ladenburg site in Germany and also coordinates its global sales of products and services from this site.

The products and comprehensive service enable Calvatis to provide each customer with an optimal price/performance ratio and excellent quality.

Continuous new development of products and continuous striving for new markets leads to co-operation and synergy that ensures further improvements.

Contracts with manufacturers of cleaning machines for industry and maintenance cleaning ensure a clear focus on practical issues that benefits both parties.

Calvatis is certified according to ► DIN EN ISO 9001 and ► DIN EN ISO 14001

Calvatis has specialised in the service sector, in addition to the production of cleaning and disinfection agents, in order to differentiate itself from its competitors.

High quality and environmental awareness are second nature, maintained as part of daily life and continuously adapted to the increasing requirements of the markets.

Disinfection

Product	Description	
tru-lit C-7 RD plus*	tru-lit C-7 RD plus is a surface active concentrated disinfectant with cleaning properties suitable for institutional kitchens and other areas. The product contains QAC as active substance and hardness binding chelates. It has an excellent cleaning action and is safe on all common materials. tru-lit C-7 RD plus is universally applicable and is suitable for cleaning and disinfecting of water resistant surfaces, appliances and containers. Can be used as spray-, wipe- and immersion-cleaner.	canister 11 kg 75578400
calgonit DS 650 T*	calgonit DS 650 T sanitation rags are ready-for-use on alcohol resistant surfaces. calgonit DS 650 T is perfume free and leaves no residues on treated surfaces. It is especially suitable for rapid disinfection in the food processing industry. Due to the special composition calgonit DS 650 T is well tolerated by skin and particularly suitable for allergic persons. Discolorations of materials which are often a problem in presence of aldehydes will not take place after the use of calgonit DS 650 T.	carton with 400 towels in extraction bucket 25640602
calgonit DS 622*	calgonit DS 622 is a liquid alcoholic disinfectant especially for treating surfaces where hydrous solutions cannot be applied. calgonit DS 622 excels by fast killing of unwanted germs and is suitable especially for the (break) disinfection e.g. of cutting and packing machines as well as in the filling area. calgonit DS 622 is free from aldehyde and can also be used for manual quick disinfection of small surfaces, equipment, furnishing and sanitary equipment.	carton 12 x 1 l 25632600 canister 6 l (5,2 kg) 25632400 canister 20 l (17kg) 25632401
 tru-lit MAR*	Tru-lit MAR is a highly effective disinfectant cleaner based on microbicidal surfactants and singled substances. The microbicidal spectrum comprises Gram-positive as Gram-negative bacteria, yeasts and fungi. The microbicidal effect is hardly affected by protein and water hardness. Tru-lit MAR is odorless, dissolves grease and protein, has a good dirt-carrying capacity and is well-tolerated material. Tru-lit MAR is excellently suitable for the cleaning and disinfection of machines and equipment, and also for the use in cleaning machines in institutional areas.	carton 10 x 1 l 75922600

*Use biocides safely. Always read safety data sheet and product information before use.

calgonit Des-H*

Personal hygiene is an important and essentially component in hygienically sensitive areas in the food and other industries. The required reduction of bacteria in the production and packing areas is mostly achieved by using a hand disinfection. Products for hand disinfection need a good skin tolerance, short contact time and broad spectrum kill. calgonit Des-H meets this requirements. calgonit Des-H contains neither ethanol nor raw materials of animal origin. Thus calgonit Des-H meets the Kosher and Halal requirements in the food processing industry.
